

Geography

This geography unit ensures that pupils understand what climate is, before moving on to describe the different climate zones found around the world. We will learn the difference between weather and climate, and study the data shown on a table containing climate information, as well as a climate graph. Then we will learn that climate differs around the world and learn the names of the different climate zones, their position around the world and their positions in relation to the Equator and the Tropics. We also consider which climate zones are found in each continent and learn to describe the typical climate of each zone.

Science

Skeletons, muscles, and nutrition is our first science unit. The focus of this biology unit is on the system of skeletons and muscles in human and animal bodies. In this unit, pupils will also learn about nutrition, and how we must eat a balanced diet to ensure that our body (including our skeleton and muscles) are healthy.

Values / SMSC

This term we will be looking at our 'Being Me In My World'
Setting personal goals, Self-identity and worth, Positivity in challenges, Rules, rights and responsibilities Rewards and consequences Responsible choices Seeing things from others' perspectives

Curriculum Leaflet

Year 3 Autumn Term 1

Art

In Art this term, we will be exploring the topic of 'Gestural Drawing with Charcoal'

In this pathway, children discover how to make drawings that capture a sense of drama or performance using charcoal.

Computing

Emails

This unit allows children to explore electronic communication using 2Email. Children learn how to respond to, compose and add attachments to emails as well as consider the safety aspects of email communication.

English

Within our English lessons, we will be using the text 'Mini Rabbit, Not Lost' to create our own adventure story based on the events in the book.
We will also be writing persuasive letters, reports and diary entries throughout the term

Maths

In Maths this half term, we will be developing our knowledge on **Number sense and exploring calculation strategies** by Read, write, order and compare numbers to 100, Calculate mentally using known facts, round and adjust, near doubles, adding on to find the difference and derive new facts from a known fact.

Religious Education

In R.E we will investigate the Christianity
, Could Jesus heal people?
Did He perform miracles or was there some other explanation?

Physical Education
